Re: Coffee Application Developer

Dear Mr. Bradley:

I am writing to express my keen interest in the Coffee Application Developer internship position, as advertised. As a third-year Software Engineering student, I am thrilled about the opportunity to contribute to your agile development team.

The prospect of working on innovative projects that involve the Saltwinds Coffee website, WooCommerce store, and internal business systems aligns perfectly with my academic background and practical experience. I am confident that my skills in Python, SQL, HTML, CSS, JavaScript, and Java, coupled with my understanding of relational database fundamentals like SQL, make me well-suited for the tasks. Throughout my academic journey, I have pursued opportunities to broaden my knowledge and skills, consistently seeking to level up with industry trends. I have hands-on experience with WordPress, Github, and Visual Studio, making me well-versed in the technologies vital to your operations. My familiarity with API integration and various web service methods such as JSON further enhances my ability to contribute effectively to your team. What excites me most about this opportunity is the chance to blend my passion for software development with my love for coffee.

Thank you for your consideration. I look forward to discussing my qualifications with you during an interview.

Yours truly,

Saran
